Murray's river of money flows to drought families

Harvey Norman said $30,000 of the funds raised would go towards fuel vouchers for those in outlying Tooowoomba districts. In addition, $30,000 of the funds raised would be allocated to local club grants. Harvey Norman executive chairman Gerry Harvey said the amount raised was a fantastic result. He said the money would go to those who were hardest hit by the drought. "This is the worst drought this region has ever experienced. The severity of the financial crisis brought on by the drought is hitting families hard," Mr Harvey said.
